

ADHIRAJ SAXENA

AI/ML Developer | Software Developer

Prayagraj / Ghaziabad, India • adhirajsaxena04@gmail.com • +91-8840670451 • github.com/adhiraj01-dev

PROFESSIONAL SUMMARY

Aspiring AI/ML Developer and MCA student with strong foundations in Python, Machine Learning, Computer Vision, and Full-Stack Development. Passionate about building intelligent systems, AI-powered applications, and automation tools. Experienced in developing real-world projects using Python, JavaScript, OpenCV, and backend technologies. Skilled in debugging, API integration, prompt engineering, and building innovative AI-powered solutions.

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript, C, HTML, CSS
AI / ML:	Machine Learning, Computer Vision, OpenCV, MediaPipe, NumPy, Pandas, Scikit-learn, Prompt Engineering, AI Automation, Data Processing
Web Development:	React.js, Node.js, Express.js, MongoDB, REST APIs
Tools & Platforms:	Git, GitHub, VS Code, Postman, Streamlit, Linux Basics
Soft Skills:	Problem Solving, Analytical Thinking, Debugging, Quick Learning, Communication, Teamwork

PROJECTS

Virtual-Mouse-AI

Python | OpenCV | MediaPipe

<https://github.com/adhiraj01-dev/Virtual-Mouse-Ai>

- Engineered a computer vision-based virtual mouse using real-time hand gesture recognition with OpenCV and MediaPipe.
- Implemented gesture-driven cursor movement, click simulation, and scroll controls without any physical hardware.
- Optimized processing pipeline for low-latency, real-time user interaction and smooth system responsiveness.
- Demonstrated applied expertise in Computer Vision, image processing, and Human-Computer Interaction (HCI).

StoryFlowAI

Python | AI Processing | Automation

<https://github.com/adhiraj01-dev/StoryFlowAI>

- Developed an AI-powered content processing platform integrating text summarization, image generation, TTS, and video processing.
- Designed end-to-end automation workflows for intelligent content generation with multi-modal AI capabilities.
- Streamlined AI processing pipelines to enhance user interaction and content delivery efficiency.
- Applied prompt engineering and AI orchestration techniques across multiple generative models.

AI Coding Assistant

Python | AI Integration | Prompt Engineering

<https://github.com/adhiraj01-dev/Ai-Coding-Assistant>

- Developed an AI-powered coding assistant with intelligent code generation and smart response handling capabilities.
- Implemented advanced prompt engineering strategies to improve code suggestion quality and developer productivity.
- Built a clean, modern UI with automated workflow features to accelerate software development tasks.
- Integrated AI APIs and designed scalable backend logic for real-time interaction.

AI Teaching Platform

JavaScript | Full-Stack | AI Integration

<https://github.com/adhiraj01-dev/Ai-Teaching-Platform>

- Built an AI-powered teaching and learning platform integrating intelligent educational workflows and backend systems.
- Designed a modern, responsive UI focused on interactive learning experiences and AI-driven content delivery.
- Developed scalable frontend-backend integration with robust API architecture for seamless AI interaction.
- Focused on usability, accessibility, and AI-enhanced personalization for diverse learners.

EDUCATION

Master of Computer Applications (MCA)

2025 – Present

Ajay Kumar Garg Engineering College, Ghaziabad

Bachelor of Computer Applications (BCA)

Jul 2023 – Jul 2025

Shambhunath College of Education, Prayagraj | GPA: 6.9 / 10

Intermediate (12th Grade)

Jul 2020 – Jul 2021

Rani Revti Devi Saraswati Vidya Niketan | 75%

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank – Problem Solving (Intermediate)
- HackerRank – SQL Certification
- HackerRank – Advanced SQL Certification
- HackerRank – C Programming Certification
- HackerRank – C++ Certification
- U-Hack 2.0 Hackathon Participant – United Group of Institutions
- Led peer debugging sessions and API integration workshops during college labs.
- Volunteered as technical support at college events (AV setup, registration systems).
